

GREETINGS:

I hope the lack of Sun energy in our dark winter hasn't brought out your hopelessness, doom and gloom. As March begins, we need to hold on for the New Moon on March 6 for a better energy pattern to emerge. Even though mischievous Mercury goes retrograde on 3/5, we are used to that 3 times each year for a 3-week course correction in life, love and learning. The major trend of the month is that the planet of disruption and chaos, Uranus, FINALLY leaves fiery Aries also on 3/6. For 7 years all of us with planets in Aries, Cancer, Libra and Capricorn have been developing adaptability through the many events that we never expected to happen coming to us suddenly. I don't know about you, but for me the New Moon in Pisces on the same day that Uranus leaves Aries and does not return for 84 years is something to celebrate big time.

For those of us in the landscape business, GOOD LUCK. We have not been able to cut grass or plant for Spring due to never ending rain and changes in weather. I will be available for your landscape needs when the Sun comes out this month. Make a list of what you need for your landscaping needs and let me know so I can put you on the list.

I want to thank all of you who took the time to watch my interview with Sally Boyd on her Activated Astrology series and sent me such complimentary emails. Sally will repeat the series starting 3/3 and when I am featured you will have 72 hours to watch us in a very interesting segment. When I get the data, I will let you know.

ASTROLOGICAL TRENDS FOR MARCH:

Venus occupies the final degree of Capricorn as March arrives and runs into that devil Uranus for the last time for the next 84 years. For some this will feel like an aggravation, while for others it is a wakeup call for change sending out the scent of becoming more of who we are, without so many fears and need to follow the rules. Fortunately, thereafter Venus enters Aquarius and invites greater socialization with friends and compassion for others. Enjoy activities which create memories with those you love.

Mercury will make a retrograde move in Pisces from 3/5-28. Sign documents and make plans before 3/5 if at all possible. This is not a great time for purchasing cars and electronics, so wait to go shopping in April. This is a month when our intuition will be stronger than usual, so take time to go within and follow your inner guidance, particularly at the New Moon (3/6), and again on 3/14 as the Sun moves forward and joins Mercury in watery Pisces. On 3/15 Mercury is expanded by joyous Jupiter in Sagittarius, so expect to have great ideas at this time. If you need to have a difficult conversation in March, this is the day to schedule it.

Venus enters air sign Aquarius at the beginning of March and moves into Pisces on 3/26 after running into Mars on 3/20, a time of fireworks in your relationship life. Thereafter, on 3/26 Venus enters Pisces, allowing us to dream and receive new solutions for old problems.

Mars is a big mover in March, which is named for Mars, the ruler of fire sign Aries. Mars is now in earthy Taurus, energizing our financial and relationship sectors. On 3/14 Mars and Saturn in Capricorn have a balancing earth triangle, allowing us to make progress in our business and financial affairs, especially for those with planets in Taurus, Aries and Capricorn. On 3/20 in conjunction with the Full Moon and the Spring Equinox, Mars and Pluto form an earth triangle which empowers all of us to move forward and make progress.

The Full Moon in Libra on 3/20 coincides with the end of winter and the beginning of Spring as the Sun leaves watery Pisces and enters fire sign Aries. This is the first period of balance we have experienced this year as the days and nights are of equal length. This is a time where we can feel the lushness of new growth, as the Moon enters Libra asking us to make a fresh start and leave the burdens of the past year behind. We are also asked to find inner balance and peace within ourselves. With Mars and Pluto in strong support of our strongest self, it is time to take reasonable risk and emerge from the waters of Pisces and show off our mermaid/merman selves.

At month's end Venus joins Neptune for a creative boost on 3/24, Mercury moves back into action on 3/28 and Mars moves into Gemini (3/31), to bring our minds back from the deep water of Pisces.

As you can see, we are all ready for release and rebirth, and the force is with us. If I can help you process confusion, feelings, future plans or mental clarity, please let me know. Half of March is the end of the astrological year with planets in Pisces. The other half of March is about new energy, ideas and actions. We are ready to "go for it" and make the best of ourselves. The path will widen for all of us. We need to develop the confidence of an Aries to put our foot on the path.

WISHING YOU A MONTH OF JOY, ABUNDANCE, HEALING AND ADVENTURE,

WITH GRATITUDE AND LOVE,

NAN
