

MARCH 2022 ASTROLOGICAL OUTLOOK: THE FORCE IS WITH US

GREETINGS:

The month of March is always significant astrologically, as the new astrological year begins as the crossroad from Pisces to Aries, marks an annual crossroad from mutable water into cardinal fire energy patterns. March 2022 is especially interesting since all the planets are moving forward in a tight line from Capricorn to Taurus, like a magnet for change and challenge, since only 5 of the 12 astrological signs are occupied in a bowl shape. We have two New Moons in March, one on **March 2** in Pisces, and one on **March 31** in Aries. As March begins the Sun, Mercury, Jupiter and Neptune occupy space in Pisces, the last sign of the zodiac, and the source of creativity, magic, intuition and what is left to resolve and release. The Pisces energy asks us to be willing to not know the why and where of life, go with the flow and trust that even in apparent chaos, a higher order of intelligence is at play.

MAJOR HIGHLIGHTS:

NEW MOON IN PISCES:

On **March 2** the Sun, Moon and Jupiter come together in Pisces, opening a portal of possibility and abundance. It is time to be aware of your deepest longings and affirm your willingness to receive what you dream of - details will come quickly. Since Mercury is joining Saturn in Aquarius, our minds are on freedom and true self-expression. It is time for all of us to come out of hiding and find our tribe. As Dr. Bruce Perry says, we can only heal ourselves in community. As addiction experts tell us, all addiction is a form of isolation. It is time to make outlandish wishes, set outrageous intentions and adopt extreme optimism. **VISUALIZE, VISUALIZE, VISUALIZE.**

MARS, VENUS, PLUTO ALIGN, THE SUN AND JUPITER FOLLOW:

On **March 3**, Mars, Venus and Pluto align in earthy, powerful Capricorn. These planets have been moving toward this date all of February. It is time to begin a new way of being in the world. On **March 5** the Sun and Jupiter join together for the only day in 2022 and it is time to sing "Do you believe in magic". Later that day

both Venus and Mars enter the freedom loving sign of Aquarius bringing inevitable change for all of us. These planets join together at 0 degrees, the same degree occupied by Saturn and Jupiter in **December 2020**. Most of us remember the beautiful star they created, symbolizing the beginning of a new 20-year cycle we will all experience together. With Mars and Venus together in Capricorn we now have the energy to chart a new course of action.

MARCH 9 - 20: THE FINAL DAYS OF THE ASTROLOGICAL YEAR MARCH 2021- MARCH 2022:

On **March 9**, Mercury moves into introspective, imaginative Pisces, allowing us to explore our inner landscape, as well as receive unlimited intuition. Four days later, **March 13**, the Sun in Pisces joins Neptune in Pisces enhancing our intuitive and creative abilities. Time for meditation, deep breathing and inner work as we transcend our life's dramas as reality and fantasy blend. On **March 18** we will receive the gift of the Full Moon in Virgo which creates a reset in our boundaries and habits. With Pluto adding stability to this Full Moon and Uranus offering a breakthrough, a new stability may appear for those of us who say "yes" to the future. It is past time for many of us to grow up. I am including an edited quote from Maya Angelou for your consideration:

SPRING EQUINOX AND FIERY ARIES ENERGY ARRIVE MARCH 20, 2022:

As the new astrological year arrives, with the emergence of Spring in the Northern Hemisphere, it is time to lighten up and plant new seeds of possibility, particularly if you have released the burdens of the past 12 months. As the Sun moves into cardinal, action sign Aries, the ruler of Aries, Mars, now in Aquarius, is moving toward a blow out with Uranus in Taurus bringing unforeseen events and unexpected breakthroughs (**March 22**). It is not the time to try to resolve conflicts with others and we all need to be aware of the temptation to be impatient and impulsive. It is time to be proactive, not reactive. We all may feel a surge of energy and this is the time to move forward with new purpose. On **March 23** Mercury joins Neptune in Pisces, enabling us to speak from our hearts and put mutual understanding and peace in all of our communications. On **March 27** Mercury joins the Sun in Aries clearing the fog from our minds and increasing our decisiveness and clarity on what we want and need. On **March 28** Venus joins Saturn in Aquarius clearly showing us where change needs to be made in our lives. At month's end

we begin again with a New Moon in Aries on **3/31-4/1**. With Mercury joining the Sun and Moon in Aries we should be more self-focused and decisive.

As you can see, we have a wild ride in March, named for Mars, the planet of war and fast-moving action. If I can help you navigate your life changes with the help of astrology and healing strategies, I will be in the office or available on the phone if you are not fully immunized.

WISHING YOU CLARITY, COURAGE, CREATIVITY, PASSION, JOY AND MEANING,

NAN
