

**NOVEMBER 2022 ASTROLOGICAL OUTLOOK**  
**SPECIAL PRICING ON CONSULTATIONS AND GIFT CERTIFICATES THIS MONTH**

**GREETINGS:**

One eclipse done (**10/25**), one to go (**11/8**), so hold onto what is left of your sanity and use my new tag line: ***MISERY BE GONE!*** After all, hurdles are master teachers of growth and development. The good news is that everything in life comes to pass, and the continuing blustery energy of October improves after the first 10 days of November, and moves into a new, positive phase on **11/20** and gives us hope and optimism to share with others as the Dark Night of the Soul recedes slowly. The thought that has sustained me in recent months is ***“The hand of love that has guided you thus far will not abandon you now”***.

With the Sun, Mercury and Venus occupying space in the murky waters of Scorpio, with quicksand on the bottom of the lake, diving deep and seeing clearly is an ongoing challenge. The second eclipse in a month rolls in on election day **11/8**, enlivened with the presence of revolutionary Uranus joining the Full Blood Moon in Taurus, guaranteeing to unleash tsunamis of unexpected surprises and a call for action. Eclipses bring revelations as well as endings. The day before the Total Eclipse (**11/7**) Venus and Saturn struggle so we can learn to say “no” and redraw our boundaries. Change accelerates as planets in Scorpio drop into the South Node of the Moon, allowing us to release what no longer serves us. We will then be able to rearrange our goals; we are weeding our garden so there is room for new growth. The first portion of November brings relationship issues to the fore, getting everything out in the open.

From **11/9 – 11/11** a more stable platform arrives and Venus and Neptune support healing what has been broken. On **11/15** Venus and Jupiter expand this process and on **11/16** Venus leads the parade into optimistic, fortunate, unlimited Sagittarius, and we move out of deep water into alchemical fire energy where it is easier to focus on the positive. As Mercury (**11/17**) and the Sun (**11/20 - 11/22**) return to Sagittarius there is a bonus of positive support as the Sun and Jupiter make a supportive triangle and Mercury and Venus join together in a leap of faith, bringing positive results, **AND THEN IT GETS EVEN BETTER:** Jupiter, the planet of abundant life begins his forward movement just as the New Moon in Sagittarius

occurs (**11/23**). At this time there are strong energies for positive change, optimism for the future and a great time to set new intentions, imagining where you want to see yourself in the coming year. With the Sun, Moon, Mercury, and Venus joining together, we have a force of nature urging us forward with confidence.

Mars continues to bedevil us until January as he disrupts our thought and speech patterns during his retrograde, mischievous period of perfecting the Trickster energy. Fortunately, he is being balanced by Saturn in Aquarius, which brings structure to everything if we practice patience and persistence. As you may imagine, the patterns that roll forward in early November are not for the faint of heart: our Shadow is chasing us so we can make peace with what we fear and have ignored in the past. It is time for new tools and new awareness as we develop a more realistic assessment of life and our place in it. November is a month for major breakthroughs that lead us to important shifts in awareness and behavioral change.
