

## September 2021 Astrological Outlook

### GREETINGS:

September brings a more manageable energy pattern so we can get to work on our lives with a smoother rhythm. September brings the balance of air sign Libra (Sun, Mercury, Venus and Mars), as well as the changing of the seasons on **9/22** as the Fall Equinox arrives. With 5 planets still retrograde, we are in a period of rethinking, revisiting, redoing, and readjusting. Jupiter has returned to air sign Aquarius, bringing air and clarity into developments that occurred from April to mid-May. You may experience gifts and improvement in those areas. Saturn is also retrograde in Aquarius, creating structural changes in the areas that have rocked our world during the past two years. Many of those conditions will release in December.

Before September begins a new cycle in earnest with the New Moon in Virgo, there are several favorable patterns that open the door to less stressful change. On **9/4** Mercury and Saturn move into a balancing pattern in air signs Libra and Aquarius, quieting our minds so we can think straight and communicate clearly. Venus is also in Libra in early September and runs into powerful Pluto on **9/5**, creating some antagonism with our personal relationships, as well as our relationship with money.

### **NEW MOON IN VIRGO SEPTEMBER 6-7:**

A boost of positive energy arrives with the New Moon in Virgo. Both the Sun and Moon are in a perfect triangle with Uranus, allowing genius and new solutions to old problems to appear without struggle. New options appear and this is a great time to put your plans into action. The next two weeks are full of opportunity to solve old problems and create new solutions. Mars is close to this New Moon, bringing courage and determination into the equation as he forms a triangle with power driven Pluton in Capricorn, encouraging us to take risks that we may not have considered feasible before. This is a "GO FOR IT" period. We may have a new take on old issues.

### **VENUS GETS ACTIVE:**

As mentioned before Venus begins the month in its home sign of Libra, seeking balance and fairness. On **9/5** Venus and Pluto collide, opening old wounds and making it a challenge to find common ground with those we are attached to. Fortunately, Venus moves into a lovely triangle with Jupiter on **9/7** opening our hearts and minds so life can remain in balance. Venus moves into the intense feeling sign of Scorpio on **9/11**, bringing a new intensity in our relationships with money, as well as with those we are attached to. On **9/17** Venus squares off with the strident, cold energy of Saturn, making it a challenge to ignore reality, especially our own needs. On **9/22** tensions mount as Venus moves into opposition with Uranus. This is not the time to make long term financial decisions or confront those you are close to. The energy of Venus in Scorpio has not been active since October of 2019. The intense and complicated energy of this aspect may rock our world. As September comes to an end, Venus finds balance with a smooth triangle with imaginative and intuitive Neptune in its home sign of Pisces. Love and money become clear in our hearts and minds once more.

### **MARS IS FULL OF ACTION:**

Mars begins the month of September in earth sign of problem solving, Virgo, allowing us to solve problems and increase our active determination. On **9/2** Mars opposes dreamy Neptune, which can be a creative leap, or a delusion leading us into a blind spot. Fortunately, Mars moves on and makes a strong triangle with Pluto in Capricorn, creating an opportunity to make successful plans for the future. This is a time to make plans that will be effective, a time for increased stability. On **9/14** Mars moves into air sign Libra, where he will affect our relationship life for the next 6 weeks. It is time to cooperate with others and make every attempt to resolve differences and difficulties.

#### **FULL MOON IN PISCES AND AUTUMN EQUINOX:**

September's Full Moon in Pisces occurs at the last degrees of the signs Pisces and Virgo. Mars is also active at this Full Moon, adding energy to the extreme feeling of the Moon. If you have not had a recent visit from your Shadow or the Shadow of others, you may feel it on **9/20**. Time to dream, meditate and create and if possible, spend some time in your interior world. This is a period of intense feeling and a time to release what no longer serves you before the beginning of the next season on **9/22**. For the next 3 months we have less daylight and more moonlight. As Venus in Scorpio opposes Uranus in Taurus we may feel interpersonal tension with others, but this is not the time to air your grievances, as Mercury begins a slowing down prior to his last retrograde period of 2021 (**9/26-10/18**). It is a time to release, review and record your thoughts and feelings and delay communication until the end of October. We end the month of September (**9/29**) with a peaceful triangle between Venus and Neptune which allows a temporary feeling of peacefulness and reconnection with those you are attached to. As the Sun in Libra makes a helpful triangle with Saturn, all is stable for the moment.

September is a month of opportunity and progress if we choose to move in that direction. Vince Lombardi said: ***"Excellence can be obtained if you care more than others think is wise;...risk more than others think is safe;...dream more than others think is practical: expect more than other think is possible"***.
